

Code of Conduct

- Regularly update Taiga tasks and issues to keep other team members up to date
- Push commits to Gitlab frequently, at least once a day throughout the week
- Communicate with each other regularly during the project to keep team members up to date with any changes
- Scrum meetings will always be attended by all team members to ensure that everyone has a clear understanding of what is expected from them
- Always attempt to complete assigned tasks before the next scrum meeting
- Equal commitment, participation and contribution from all team members
- Resolve creative or personal conflicts with a face-to-face discussion
